# DISCOVER YOUR ANIMAL HEALTH CAREER PATH >

## At the heart of an animal health calling, you'll uncover...

### Innovation

Smart devices and point-of-care tools made through innovation moves our industry forward.

### Science

In-clinic, in-the-field (literally), and at home, our industry is driven by technology.

### Technology

Protecting the lives of the animals we love and the ones who sustain us, science is at the core of our field.

### Data

Finding rhyme and reason in the seemingly unrelated, data is integral to our industry.

### Entrepreneurship

Offering opportunity for growth, change, and problem-solving, entrepreneurship is what we're all about.

**The animal health industry exists to protect: The human-animal bond, the food supply, our natural resources and futures. You can be involved in countless ways from the boardroom to the pasture.**
